Established in 1974, the Wichita Industrial Trade Show (WITS) has become a significant marketplace in the heartland of Mid-America for buyers, manufacturing sources, industrial material, machinery and equipment. The show offers a dual opportunity for exhibitors from all sectors of our industrial community to present their products and services and for professionals of all levels to view the exhibits.

The Wichita Industrial Trade Show, Inc. is sponsored by the Institute for Supply Management-Wichita and the Society for Advancement of Manufacturing as a non-profit fund raiser to support their associations and community projects. Specifically, monies from the show are used for scholarships at area colleges and universities and for various educational seminars, materials and activities.

Show management is provided solely by volunteers and employees of various companies in the community, who know how important it is to have an opportunity to keep abreast of the latest advancements in automation technologies which allow manufacturing competition throughout the world. The WITS management and exhibitors are committed to the common goal of making our community a better place to live, work and enjoy.
