

Cybersecurity in industrial environments

Presented By Shadi Marcos

Get the latest strategies and technologies to keep your industrial networks secured and your company one step ahead of the hackers.

Shadi Marcos is the president and chief financial officer of Cybertron International Inc. and oversees the overall financial and strategic management, including the company's accounting, financial reporting, long-range business planning, internal audit and tax functions. Additionally, he oversees CybertronIT, the company's informational technology service arm.

As a founding member of the company's board of directors, he has been with Cybertron since 1997. Marcos has extensive operational and financial experience, with the overall goal of balancing growth initiatives and affordability across the company.

Shadi Marcos graduated from Wichita State University with his bachelors in business administration, earning his master's degree in business administration at Friends University. He also serves as a board member of the Wichita State University Foundation Board of Advisors.
