News Release

WMA Top Management Panel

As a corner stone event for the 2021 Wichita Industrial Trade Show (WITS), the Wichita Manufacturers Association (WMA), will host a Top Management Panel the morning of October 27th in Century II. The panel discussion is focused on addressing a topic of mutual interest to manufacturing devotees in the greater Wichita region. The topic for the 2021 WMA Top Management Panel is:

Manufacturing 2022 – Growth Challenges and Opportunities

Four management leaders representing various diverse business segments in the region will share their views on the growth challenges they face, the opportunities they see going forward, and how the challenges and opportunities will impact their business and business growth in the region. After the panel presentations the floor will be opened to questions from attendees on the topic.
