

Mr. Stevens, a nearly lifelong Wichitan, serves as President and CEO of Phy-Cy.X Security Group, LLC (pronounced physics); founded in 2019 to be Wichita's premier cybersecurity provider. Mr. Stevens served over 23 years with the US Air Force and KS Air National Guard; retiring at the highest enlisted rank, Chief Master Sergeant. He began his career in aircraft maintenance repairing and updating the B-1B bomber's armament systems. In advancing his career, he transitioned into intelligence, surveillance, and reconnaissance operations, providing nearly 15 years of expert level intelligence support to US Special Operations Forces. Closing out his career, Mr. Stevens transitioned into cyberwarfare operations, spending over seven years leading some of the world's most elite cybersecurity professionals as members of an NSA certified DOD Red Team and one of the Air Force's Hunt Forward Cyber Protection Teams. Mr. Stevens earned his Technical Master of Business Administration in Cybersecurity from Capitol Technology University and his Bachelor of Science in Security Management from Southwestern College. He also holds several professional certifications including being recognized as one of the first CMMC Registered Practitioners in the State of Kansas. During his free time, Mr. Stevens enjoys traveling with his wife and two daughters, and getting a round of golf whenever he can.
