**Top Management Panel**  
October 18<sup>th</sup>, 2023  
Century II 2<sup>nd</sup> Floor Peach Room 201 A & B  
Complimentary Continental Breakfast at 7:30 AM hosted by WMA  
Panel at 7:50 AM

As a cornerstone event for the 2023 Wichita Industrial Trade Show (WITS), the Wichita Manufacturers Association (WMA), will host a Top Management Panel on the morning of October 18<sup>th</sup> in Century II. The panel discussion is focused on addressing a topic of mutual interest to manufacturing devotees in the greater Wichita region. The topic for the 2023 WMA Top Management Panel is:

**Manufacturing 2023 – Growth Challenges and Opportunities**

Three management leaders representing various diverse business support segments in the region will share their views on opportunities available to meet and facilitate growth challenges. After the panel presentations the floor will be opened to questions from attendees on the topic.

**Panelist:**

**Amanda Duncan, Vice President, Chief Business Development Officer, Workforce Alliance - South-Central Ks**

Leveraged Training: Addressing the opportunities available in the region to leverage government programs to provide training for current and future employees.

**Tariq Azmi, Director of Compliance – Soteria Technology Solutions Wichita Ks**

Cyber Security Strategy: Building a Resilient Organization, Understanding and Mitigating Risks

**Andy Jonas, Manager, Wichita State University NIAR Advanced Machining and Prototyping Lab (AMP)**

Developing Products and Processes: Explain the capabilities offered to the region by the Advanced Machining and Prototyping Lab (AMP) and how manufacturing companies can engage the services in a rapid product development project.
